## Profile

I have a deep passion for Heal Promotion and Disease Prevention and am currently pursuing a Bachelor's degree at University of Southern California. I hope to bring my enthusiasm in service, passion for science, and international viewpoint to the workplace.

## Experience

### Work at USC Campus Relations and University Events

2015 October –

Completed trainings to help out during university events. Specific responsibilities include help set up and sign in for numerous specific university special events such as game days and graduation ceremony.

### Alpha Phi Omega volunteer

2015 January -

Weekly volunteering in service events around Los Angeles community. Also attend outings that help friendly relationships with other chapters in California.

### Black ball Drink shop

2015 June - August

Managed making drinks, communicating with customers, opening stores through preparing ingredients.

### JB's diner waitressing

2014 July- August

Trained to serve and communicate with customers in regular restaurant setting.

### Research Internship

2013 June - August

Interned at mitochondria research lab of National Yang Ming University in Taiwan under Professor Wei. Research entailed performing western blot, protein extraction, and other basic research skills.

### Scientific Research

2013 August – 2014 June

Conducted scientific research as part of Taipei American School's iGEM team. Research under the field of synthetic biology related to regulation of telomere length. Third place in iGEM competition.

### Volunteer at Cathwel Orphanage

2010 December – 2014 May

Monthly outings to local Taiwanese orphanage and served as Cathwel Chairperson for a year.

Responsibilities include planning, leading outings, and caring for the children at Cathwel Orphanage. Also had leadership positions in fundraising for the club through selling raffle tickets.

## Education

### Taipei American School
